Education

King Saud University

Bachelor's Degree in Information Systems
2019 - 2024

GPA : 3.83 Out of 5

Skills

- Deep Learning
- Computer Vision
- Problem Solving
- Data Mining
- Web Development
- App Development
- Business Process Management
- Flexibility

Summary

I am looking to specialize in artificial intelligence and machine learning. my goal is to apply my experience to contribute to a team that drive innovation and create transformative solutions.

Certifications

- Microsoft Azure Data Scientist Associate 2024
- CFTE Artificial intelligence in Finance 2024

Projects

- Developed a convolutional neural network (CNN) model using Fastai that successfully classifies dates.
- Developed a mobile application that utilizes image recognition to classify dates from pictures taken by the user.
